#### Brainstorm & Idea Prioritization Template:

A "Brainstorm & Idea Prioritization Template" is a structured tool designed to harness creativity and transform it into actionable insights. This template facilitates the brainstorming process by providing a framework where team members can freely generate a variety of ideas without immediate criticism. Once ideas are gathered, the template also offers methods to evaluate and rank them based on factors such as feasibility, impact, and alignment with strategic goals. By organizing the ideas in a clear, visual manner, the template ensures that the most promising concepts are identified and prioritized, enabling teams to focus their efforts on initiatives that offer the greatest potential for success.

#### Step-1: Team Gathering, Collaboration and Select the Problem Statement

#### Step-1: Team Gathering, Collaboration and Select the Problem Statement

### 2 Brainstorm

Brainstorming is a fast-paced idea-generating activity that encourages participants to generate ideas freely, without self-censoring. The goal is to generate as many ideas as possible, without worrying about whether they are good or bad. The ideas are then evaluated and refined.

10 minutes

**TIP** You can select a sticky note and pin it to the board to keep it in place.

### 3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

**TIP** Ask customers to help you group notes to make it easier to find, group, and categorize important ideas as they enter your mind.

## Step-3: Idea Prioritization

### 4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

**TIP** Participants may use their markers to point at ideas, sticky notes should go into the grid. The facilitator can confirm the spot by saying the idea and pointing the H key on the keyboard.

### After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

**Quick add-ons**

- Share the mural**  
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**  
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

**Keep moving forward**

- Strategy blueprint**  
Define the components of a new idea or strategy.
